**RESPONSE TO ELECTION REQUIREMENT WITH TRAVERSE**

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

RECEIVED

TC 3700 MAIL ROOM

Sir:

In response to the Examiner's Election of Species Requirement dated August 9, 2002, setting a one month period for response extending until September 9, 2002, Applicants elect the Specie I, with traverse, for the reasons expressed below. Claims 2-17 are considered to be "readable" on the invention of Specie I, and claims 1 and 18-21 are considered to be generic (as set forth by the Examiner).

Applicants respectfully traverse the Election of Species Requirement. Although the Examiner's Office Action appears to accurately identify different embodiments of the claimed invention, Applicants respectfully request that all of the claims in the instant application be examined, pursuant to the guidelines set forth in MPEP §803. That is, the Examiner is respectfully requested to reconsider the requirement and find that there would not appear to be a "serious burden" on the Patent and Trademark Office in examining claims

directed to the nonelected inventions since the search for the inventions identified by the Examiner would be coextensive or at least significantly overlap. It appears that if the Examiner were to perform a search for the embodiment of Specie I, there would not be a serious burden in examining the other embodiments, especially since all of the claims are directed to at least a flexible tube for an endoscope having a core body and a three layer laminate outer cover.

Because the search of each of the inventions would be coextensive, it would be no serious burden on the Examiner to examine all of the claims in the application. For this reason, and consistent with office policy as set forth in MPEP §803, Applicants respectfully request that the Examiner reconsider and withdraw the Election of Species Requirement.

For the foregoing reasons, it is submitted that the Election of Species Requirement in this application is improper and it is respectfully requested that it be reconsidered and withdrawn.

Should the Examiner have any questions, please contact the undersigned at the telephone number provided below.

Respectfully submitted,  
M. MATSUSHITA et al.
